DISEASE MARKERS
(*Dis. Markers*)

CONTENTS

VOLUME 9, ISSUE Nos. 1–6

VOLUME 9, ISSUE No. 1 *January–February 1991*

RESEARCH PAPERS

Further Studies on Acid Phosphatase in Obese Subjects *A. Paggi, P. Borgiani, F. Gloria-Bottini, S. Russo, I. Saponara, M. Banci, A. Amante, N. Lucarini and E. Bottini* 1

Characterization of a Monoclonal Antibody with CD44 Like Reactivity *G. Kremmidiotis, G. Russ, R. Starr and H. Zola* 9

HLA Antigen Frequencies in Children Born to HIV-Infected Mothers *D. C. Kilpatrick, R. A. Hague, P. L. Yap and J. Y. Q. Mok* 21

Interactive Effect of HLA and GM and Genetic Heterogeneity Tested in 79 Rheumatoid Arthritis Families *M. H. Dizier, A. J. Silman, W. Ollier, D. M. Grennan and F. Clerget-Darpoux* 27

DNA Polymorphism of HLA Class II Genes in Alopecia Areata *N. Morling, G. Frentz, L. Fugger, J. Georgsen, B. Jakobsen, N. Ødum and A. Svejgaard* . . 35

SHORT COMMUNICATIONS

Interaction of Immunoglobulin Allotypes (GM and KM), HLA, and Sex in Insulin-dependent (Type 1) Diabetes *D. N. Propert, B. D. Tait and L. C. Harrison* 43

No Association of HLA Class II Antigens in Chronic Fatigue Syndrome *D. Middleton, D. A. Savage and D. G. Smith* 47

AIDS MEDICAL UPDATE 51

ANNOUNCEMENT 61

VOLUME 9, ISSUE No. 2 *March–April 1991*

RESEARCH PAPERS

Affairs of the Heart: Cholesterol and Coronary Heart Disease Risk *J. Shepherd, D. Gaffney and C. J. Packard* 63

An Apolipoprotein CII Mutation, $CII_{Lys19 \rightarrow Thr}$ Identified in Patients with Hyperlipidemia *R. A. Hegele, P. W. Connelly, G. F. MaGuire, M. W. Huff, L. Leiter, B. M. Wolfe, A. J. Evans and J. A. Little* 73

Clonal Cytogenetic Changes in Atherosclerotic Plaques Including Trisomy 20 *R. Vanni and S. Licheri* 81

Variation in the Apolipoprotein B Gene and Development of Type 2 Diabetes Mellitus *R. S. Houlston, C. Snowden, M. F. Laker, K. G. M. M. Alberti and S. E. Humphries* 87

HLA-B40: A Marker for Susceptibility to Lung Disease in Rheumatoid Arthritis *P. J. Charles, M. C. Sweatman, J. R. Markwick and R. N. Maini* . . 97

The Expression of Sub-Population Markers on B Cells: A Re-evaluation Using High-Sensitivity Fluorescence Flow Cytometry *H. Zola, P. J. Macardle, L. Flego and J. Webster* 103

AIDS MEDICAL UPDATE 119

BOOK REVIEW 123

Proceedings of the British Association for Cancer Research (BACR) Workshop on Monoclonal Antibodies in Breast and Ovarian Cancer, Oxford, 17–19 March 1991. Guest Editor: J. E. Roulston

VOLUME 9, ISSUE Nos. 3/4 SPECIAL ISSUE *May–August 1991*

INTRODUCTION: Monoclonal Antibodies in Breast and Ovarian Cancer: An Overview *J. E. Roulston* 125

Standardization and Quality Control of Tumour Marker Assays *A. M. Ward* . 127

The Identification of High Risk and Practical Strategies for a Population Based Randomized Trial of Ovarian Cancer Screening *I. V. Scott* 133

Impact of Tumour Marker Measurements upon Management of Patients with Carcinoma of the Ovary *G. J. S. Rustin* 153

Immunohistochemical Assessment of Tumour Behaviour and Patient Prognosis in Human Breast Cancer *D. M. Barnes* 159

Serological Monitoring of Advanced Breast Cancer Treated by Systemic Cytotoxic using a Combination of ESR, CEA, and CA 15·3: Fact or Fiction? *A. R. Dixon, I. Jönrup, L. Jackson, S. Y. Chan, R. A. Badley and R. W. Blamey* 167

Serological Monitoring of Epithelial Ovarian Cancer *J. Fisken, R. C. F. Leonard, A. Badley, I. Jönrup, L. Aspinall, C. Sturgeon and J. E. Roulston* 175

Radioimmunoscintigraphy of Ovarian Cancer *M. Granowska and K. E. Britton* 191

Reshaping Human Monoclonal Antibodies for Imaging and Therapy *M. E. Verhoeyen, J. A. Saunders, E. L. Broderick, S. J. Eida and R. A. Badley* . . . 197

The Mucin Antigens: What are we Measuring? *M. R. Price, S. Briggs, M. J. Scanlon, S. J. B. Tendler, P. E. C. Sibley and C. W. Hand* 205

Molecular Markers of Breast and Ovarian Cancer *C. M. Steel* 213

Antibody Directed Enzyme Prodrug Therapy (ADEPT): A Three Phase System *S. K. Sharma, K. D. Bagshawe, C. J. Springer, P. J. Burke, G. T. Rogers, J. A. Boden, P. Antoniw, R. G. Melton and R. F. Sherwood* 225

Antibody Directed Enzyme Prodrug Therapy (ADEPT): Clinical Report *K. D. Bagshawe, S. K. Sharma, C. J. Springer, P. Antoniw, J. A. Boden, G. T. Rogers, P. J. Burke, R. G. Melton and R. F. Sherwood* 233

VOLUME 9, ISSUE No. 5 *September–October 1991*

RESEARCH PAPERS

Occult Metastases in the Axillary Lymph Nodes of Patients with Breast Cancer Node Negative by Clinical and Histologic Examination and Conventional Histology *Z.-L. Chen, D.-R. Wen, W. F. Coulson, A. E. Giuliano and A. J. Cochran* 239

HLR-DR and -DQ Genotyping in Anti-GBM Disease *H. Dunckley, J. R. Chapman, J. Burke, J. Charlesworth, J. Hayes, E. Haywood, B. Hutchison, L. Ibels, S. Kalowski, P. Kincaid-Smith, S. Lawrence, D. Lewis, J. Moran, B. Pussell, A. Restifo, J. Stewart, G. Thatcher, R. Walker, D. Waugh, D. Wilson and R. Wyndham* 249

Restriction Fragment Length Polymorphism (RFLP) Heterogeneity of HLA-DQ Beta Genes Associated with DNA Fragment Identical to the DR1-Beta DNA Structure *A. Redford, D. Magalong, M. Onohara-Toyoda, D. Tyan, W. J. Riley, N. K. Maclaren, J. I. Rotter and H. Toyoda* 257

A New Radioimmunoassay Detecting Early Stages of Colon Cancer: A Comparison with CEA, AFP, and Ca 19-9 *S. J. Chester, P. Maimonis, P. Vanzuiden, M. Finklestein, J. Bookout and M. P. Vezeridis* 265

The Level and the Persistence of Islet Cell Antibodies in Healthy Schoolchildren are Associated with Polymorphic Residues of the HLA-DQB Chain *B. O. Boehm, J. Seißler, M. Glück, B. J. Manfras, H. Thomas, K. Schmidt, W. A. Rudert, K. H. Usadel, M. Trucco and W. A. Scherbaum* 273

HLA Antigens Associated with Susceptibility to Herpes Simplex Virus Infection *A. A. R. Jabbar, A. M. Al-Samarai and N. S. Al-Amar* 281

Immunogenetics of Rheumatoid Arthritis and Primary Sjögren's Syndrome: DNA Polymorphism of HLA Class II Genes *N. Morling, V. Andersen, L. Fugger, J. Georgsen, P. Halberg, P. Oxholm, N. Ødum and A. Svejgaard* . 289

The Association between HLA-DR3 and Antibodies to the Nuclear Ribonucleoprotein La: Differences between Patients from Northern Europe and those from the Indian Subcontinent *P. J. Charles, J. R. Markwick, P. J. Venables and R. N. Maini* 297

VOLUME 9, ISSUE No. 6 *November–December 1991*

RESEARCH PAPERS

A Rapid PCR-based Method to Distinguish Between Fetal and Maternal Cells in Chorionic Biopsies using Microsatellite Polymorphisms *J. S. Noble, G. R. Taylor, A. D. Stewart, R. F. Mueller and V. A. Murday* 301

Serological and Molecular Studies of HLA in Sardinian Patients with Graves' Disease *G. La Nasa, E. Martino, C. Carcassi, M. Mulargia, L. Floris, A. Vacca, G. Baldini, S. Orrù, A. Ledda, L. Grasso, F. Velluzzi and L. Contu* . . 307

HLA Antigens and Antigliadin Antibodies in Coeliac Disease *M. Bonamico, M. Morellini, P. Mariani, P. Triglione, S. Trabace, P. Lulli, S. Cappellacci and G. Ballati* 313

Polymorphisms of the Apolipoprotein B and E Genes and their Possible Roles in Familial and Non-Familial Combined Hyperlipidaemia *R. Houlston, B. Lewis and S. E. Humphries* 319

HLA B51 Antigen Associated with Neutrophil Hyper-Reactivity *A. Sensi, R. Gavioli, S. Spisani, A. Balboni, L. Melchiorri, A. Menicucci, G. Palumbo, S. Traniello and O. R. Baricordi* 327

Bf S Gene Frequency in Nigerians with HIV Infection *G. P. Uko, R. L. Dawkins, I. Mohammed, P. H. Kay, F. T. Christiansen, A. Nasidi and M. Bajani* . 333
